Alabaster*

Sierra

Sand

Mocha

Fossil

StyleLite® is the perfect material to create luxury kitchen and bathroom storage, bespoke furniture, and feature panels.

It's an ideal solution for cabinetmakers, builders, architects and discerning homeowners looking to add the perfect touch to their creations.

StyleLite is available in two finishes – an ultra high gloss, and a velvet matte. Both finishes offer a smooth, flawless surface with an unsurpassed depth of colour.

StyleLite – the material for modern design.

Superior Features

- ▶ Available in High Gloss and Velvet (matte) finishes
- ▶ Very easy to clean and maintain
- ▶ UV and colour change protected
- ▶ 10 Year Indoor Warranty*
- ▶ Repairable surface that won't chip, crack or delaminate

Applications

- ▶ Kitchen and vanity cabinets
- ▶ Office furniture and partitions
- ▶ Wardrobe and passageway doors
- ▶ Caravans and RV joinery
- ▶ Retail displays

*Also available in Velvet matte finish

Due to the nature of the printing process, the colours and images depicted throughout this brochure may vary compared to the actual finished products' colour. Images and colours are to be used as a guide only.

StyleLite in your home

StyleLite can be used on any vertical surface.

Woodgrain Colours

Product Range

All StyleLite panels feature StyleLite Sheet laminated front and back to a quality substrate. The range is divided into various applications, based on the best use of each substrate.

StyleLite is available in two finishes – **High Gloss**, or **Velvet (matte)**.

High Gloss Finish

Smooth, ultra gloss finish that provides a mirror-like appearance. Highly reflective.

Velvet Finish

Smooth, untextured matte finish, that provides increased scratch resistance over High Gloss.

StyleLite Standard Panels

Regular StyleLite panels, suitable for a range of general purpose applications. Uses premium quality moisture-resistant MDF, rated to formaldehyde emissions standard E0. Perfect for kitchen and vanity doors and panels, furniture, hinged wardrobe doors, and general cabinetry.

StyleLite Lightweight Panels

Lightweight panels, perfect for when weight is a consideration. Uses high quality lightweight plywood. Great for interior fitout for caravans and RVs – from furniture and kitchen cabinetry, to vanity doors and panels.

StyleLite Wardrobe Panels

Ultra-thin lightweight panels, created specifically for sliding wardrobe door applications. The MDF substrate provides rigidity while remaining easy to work, while the thin panel thickness ensures compatibility with most wardrobe rail systems.

StyleLite Sheet

StyleLite Sheet is manufactured from high quality acrylic-capped ABS, and features reverse-side tread for superior bonding. StyleLite Sheet is sold for laminator's use only – it is provided ready for manual or machine lamination onto a variety of substrates.

Product	Substrate	Sheet Size	Region	Weight	Finish
Standard Panels*	MR MDF E0	2400 × 1200 × 18mm	Global	13.5kg/m ²	High Gloss and Velvet
	MR MDF E0	3000 × 1200 × 18mm	Australasia	13.5kg/m ²	High Gloss

	StyleLite Sheet	97" × 48.5" × 3/64"	USA	0.2lb/ft ²	High Gloss and Velvet

* Other Substrates available on request. Optional White Textured Backing Sheet also available on all products except MR MDF E0 3000 x 1200 x 18mm. † Optional White Textured Backing Sheet also available.

Guaranteed Quality

StyleLite is manufactured by EGR in Brisbane, Australia using high quality acrylic-capped ABS sheet, produced in-house using world-class co-extrusion technology. Our StyleLite Panels are created by laminating 1mm StyleLite Sheet front and back to a variety of substrates using our premier polyurethane (PUR) hot melt bonding system. This system produces a ripple-free finish that is highly resistant to heat, moisture and environmental change over time.

StyleLite delivers a superior appearance to high-pressure laminates, melamine, paint, two-pack, PVC or vinyl panels.

Both our in-house sheet production and sophisticated PUR lamination facilities have been recognised for achieving ISO9001 Quality Management certification for their consistent performance and quality systems.

StyleLite and the Environment

StyleLite offers significant environmental advantages compared with other cabinetry surfaces. No Volatile Organic Compounds (VOCs) are produced in the manufacturing process, unlike two-pack spray painting. What's more, StyleLite panels are an inert material, and don't release any emissions to the environment during manufacture or use.

None of the colour pigments used in StyleLite contain heavy metals, such as lead or cadmium. StyleLite is also highly recyclable – making it the best choice for modern, eco-friendly interiors.

Edge Finishing

To ensure perfect finishing, colour matched Edge Band rolls are available for StyleLite High Gloss and Velvet Panel products.

StyleLite has partnered with a variety of global edge finishing specialists to create an extensive range. All StyleLite compatible Edge Band is of premium quality and offer high resistance to heat, abrasion, impact and colour fade.

StyleLite Edge Band is available in two options – Pre-primed and Fusion. For full details, refer to the **Installation and Specifications Guide**, available on www.stylelite.net, or talk to your local distributor.

THE TRUSTED AUSTRALIAN MANUFACTURER FOR OVER 40 YEARS

With more than 42 years manufacturing experience, EGR exports its products to over 40 countries around the world. By employing world class systems and using the latest technology, EGR manufactures and supplies quality products to over 10,000 distribution points globally.
